RONE

Location: Paris, France

Website: <http://myspace.com/rone0>

Bio: Behind Rone there is Erwan Castex, young Parisian dj and producer. Working originally as a filmmaker, he composes his first music creations between two shoots. His works, going from experimental techno to melodic ambient, soon grab the attention of the the most receptive ears: Ellen Allen, Massive Attack, Laurent Garnier, Border Community, and furthermore Agoria, who brings him to light in the amazing compilation "At the controls". The compositions draw the interest of Parisian label InFiné (Apparat, Danton Eeprom...), that offers Rone a new chance of expression with the long awaited release of the maxi "Bora".

Since then Rone has been tracklisted in the last Steve Lawler and Sasha's album (with Thom Yorke and Telefon Tel Aviv).

His own first album will be released in february 2009 (InFiné music). ([less](#))
