Three years after *Mirapolis*, French producer Erwan Castex aka **Rone** announced the release of a new album. ***Room With A View*** will be out later this year via Infiné. “**Human**” is the first excerpt. The official video was live recorded at Château de Châteaudun (France). The director **Aelred Nils** explains:

“Listening to ‘Human’, I immediately had an idea for a clip: very cinematic, quite grandiose and aesthetically in harmony with other live clips of “La Blogothèque”. Plus, a film shot in an exceptional location and visionary in its use of light.”
