Tymoteus Cypla & Sebastian Pellowski are not like the average Polish youth slightly dumbed down by the Pan-European TV channel, Viva Zwei. They are probably the last producers daring to qualify their own music as “TRANCE”. But for "**THE SAME**", this word “Trance” is not a label stamped to a record. For them, the word means a journey in a limitless space and time frame, which brought them to get to meet, whereas they were living hundreds of kilometres from each other.

From their encounter came out a first EP entitled “We are the Same” released by the very respected net label, Phatt Sounds. In 2010, one of their track “Szarpiesz Minerwa” slipped into Agoria’s “Balance” mixed compilation and a new relationship starts with the crew of InFiné (check their Podcast inspired by Gaspar Noé’s “Enter the Void” on the InFiné website). A dark and cinematic atmosphere can characterize their Music. They build up their musical outputs with ready-to-rumble basslines, vicious synth-waves and explosive hi hats.

The Fungeez EP could not find any better shelter than InFiné : mutant and hors catégorie like most of the release of the label. Its four tracks are equally sick and euphoristic and display a sound power, which will set fire to any dancefloor.
