(PHOTO BY MARINE KELLER)

Mouy based artist **Toh Imago** is set to release his debut album *Nord Noir* on October 18th via **InFiné Music**. His music has been described as leftfield techno and it weaves in shimmering ambient soundscapes to fully accentuate the listening experience. "*Nord Noir* tells a story as much as it creates a soundscape. Its creator, Toh Imago, took 18 months to improve his artistic skills and shape the plot of the album. *Nord Noir* is inspired by the proletarian and mining culture of northern France."

We caught up with the artist and asked him what three albums have influenced him and his music. Below are his picks.
